

**REMARKS**

Claims 1-48 are pending in the application, and are subject to a restriction requirement. Applicants hereby provisionally elect the invention of Group II, claims 8-12, 21-30, which the Office states is drawn to an imaging array structure, classified in class 600, subclass 463.

It is noted that the restriction requirement as written included claim 8 in Group I, rather than in Group II where it would appear to belong. That grouping is believed to have been a typographical error by the Office, and this response includes claim 8 in the elected Group II.

Favorable consideration of the application is respectfully requested.

Respectfully submitted,
